

Before Starting the Project Application

To ensure that the Project Application is completed accurately, ALL project applicants should review the following information BEFORE beginning the application.

Things to Remember:

- Additional training resources can be found on the HUD.gov at https://www.hud.gov/program_offices/comm_planning/coc.
- Questions regarding the FY 2026 CoC Program Competition process must be submitted to CoCNOFO@hud.gov.
- Questions related to e-snaps functionality (e.g., password lockout, access to user's application account, updating Applicant Profile) must be submitted to e-snaps@hud.gov.
- Project applicants are required to have a Unique Entity Identifier (UEI) number and an active registration in the Central Contractor Registration (CCR)/System for Award Management (SAM) in order to apply for funding under the Fiscal Year (FY) 2026 Continuum of Care (CoC) Program Competition. For more information see FY 2026 CoC Program Competition NOFO.
- To ensure that applications are considered for funding, applicants should read all sections of the FY 2026 CoC Program NOFO and the FY 2026 General Section NOFO.
- Detailed instructions and e-snaps navigation guides can be found on the hud.gov website https://www.hud.gov/program_offices/comm_planning/coc/competition. The Detailed Instructions contain more comprehensive instructions and so should be used in tandem with the navigational guides.

2B. Experience of Applicant, Subrecipient(s), and Other Partners

1. Describe your organization's (and subrecipient(s) if applicable) experience in effectively utilizing Federal funds and performing the activities proposed in the application.

Families And Children Together (FACT) has demonstrated a strong capacity to effectively manage federal funding while delivering high-quality, family-centered services to individuals and families experiencing crisis, trauma, housing instability, and homelessness. Through sound fiscal management, strong internal controls, and outcome-driven program design, FACT ensures that every funding dollar is used strategically to maximize services and improve outcomes for the communities we serve.

FACT has successfully administered federal funding to provide comprehensive resource navigation, referrals, case coordination, and family support services. Our approach prioritizes early engagement and intervention, recognizing that connecting families to resources before challenges escalate leads to greater stability and reduces the need for more intensive interventions. We serve children, caregivers, and individuals experiencing economic hardship, homelessness, or risk of homelessness by linking them to housing resources, food assistance, transportation, healthcare, behavioral health services, education, employment supports, and other essential community services.

Our budgets are intentionally designed to maximize direct services while maintaining strong fiscal accountability. FACT regularly monitors expenditures, evaluates program performance, and reallocates resources as needed to address emerging community needs and ensure efficient use of funding. We leverage community partnerships, in-kind resources, and collaborative service delivery to expand the reach and impact of every federal dollar invested.

Under the leadership of our Chief Executive Officer, who has extensive experience in quality improvement, compliance, and auditing, and with financial oversight provided by a Board Chair with a strong background as a Chief Financial Officer, FACT maintains rigorous financial management practices and compliance with grant requirements. This oversight ensures transparency, accountability, and responsible stewardship of public funds.

FACT's experience managing federal resources, combined with our strong community partnerships and commitment to prevention, positions us to successfully implement the proposed activities while ensuring funds directly benefit children, families, and individuals most in need. Our focus remains on strengthening protective factors, increasing family stability, preventing crises, and helping families build long-term resilience through coordinated, community-based support services.

2. Describe your organization's (and subrecipient(s) if applicable) experience in leveraging Federal, State, local and private sector funds.

FACT has extensive experience leveraging Federal, State, local, and private sector funding to expand access to critical services and improve outcomes for children, families, and individuals experiencing crisis, trauma, housing instability, and homelessness. Our funding strategy is intentionally diversified, allowing us to build sustainable programs while maximizing the impact of every investment.

FACT has successfully utilized federal funding to provide comprehensive resource navigation, referrals, case coordination, and family support services. We combine these federal investments with state appropriations, local government support, foundation grants, corporate sponsorships, private donations, and community partnerships to create a coordinated system of care that addresses the complex needs of families. By braiding multiple funding sources, FACT is able to extend services beyond the scope of any single grant, ensuring families receive timely, comprehensive support while reducing duplication of services.

FACT is committed to using every funding dollar efficiently and strategically. Budgets are developed with a focus on maximizing direct services while maintaining strong fiscal accountability and compliance with all funding requirements. Through careful financial planning, ongoing budget monitoring, and outcome-based decision-making, FACT ensures resources are directed where they have the greatest impact. We also leverage in-kind contributions, volunteer support, and collaborative partnerships to expand service capacity without increasing administrative costs.

FACT's approach prioritizes early engagement and intervention because we know that connecting families with resources before challenges escalate leads to stronger outcomes and reduces the need for more costly crisis interventions. We work with families experiencing economic hardship, housing instability, homelessness, or other barriers by connecting them to housing resources, food assistance, transportation, healthcare, behavioral health services, educational supports, employment resources, and other essential community services.

FACT also has a proven history of leveraging investments to grow programs and strengthen community impact. Through strategic partnerships with nonprofit organizations, healthcare providers, schools, local governments, businesses, and philanthropic organizations, we have expanded prevention-focused initiatives such as community support hubs, mobile resource outreach, caregiver engagement events, literacy programming, and resource navigation services. These collaborations allow FACT to maximize available funding, increase service reach, and improve access for underserved populations across the communities we serve.

This collaborative funding model has positioned FACT to respond quickly to emerging community needs while maintaining high-quality, family-centered services. Our experience leveraging Federal, State, local, and private sector resources demonstrates our ability to sustain programs, maximize public investment, and deliver meaningful, measurable outcomes that strengthen families, promote housing stability, and build healthier, more resilient communities.

3. Describe your organization's (and subrecipient(s) if applicable) financial management structure.

FACT maintains financial oversight using both executive leadership and board governance. Fact's CEO is responsible for the administration of the budget and operations. Board oversight is led by the Board Chair, who has extensive financial expertise and experience most notably as a former Chief Financial Officer (CFO). The Board provides ongoing review of budgeting, financial controls, and oversight to help ensure responsible management of organizational resources and sustainability.

4A. Supportive Services for Participants

1a. Describe how The Supportive Services project is necessary to assist people in exiting homelessness, addressing barriers to stable housing (e.g., substance use disorder, unemployment, childcare, etc.) and increasing self-sufficiency.

FACT recognizes that homelessness is rarely caused by a single issue. Families experiencing housing instability often face multiple barriers, including financial hardship, unemployment, lack of affordable childcare, transportation challenges, behavioral health concerns, domestic violence, and difficulty navigating complex systems. Without coordinated support, these barriers can quickly escalate into prolonged homelessness and poor outcomes for both children and adults.

The Supportive Services Project is designed to help individuals and families exit homelessness as quickly as possible while addressing the underlying factors that threaten long-term housing stability. FACT's prevention-focused, family-centered approach emphasizes early intervention, resource coordination, and ongoing case management to ensure families receive the support they need to achieve self-sufficiency. This includes the addition of a Housing Liaison** and increased support for our Education Liaison to provide specialized, hands-on support to families experiencing homelessness or housing instability.

The Housing Liaison will work directly with families to navigate often-complex housing systems and remove barriers to obtaining and maintaining stable housing. Services will include assisting with housing applications, landlord-tenant communication, lease education, eviction prevention, housing search assistance, referrals to emergency and permanent housing resources, and coordination with community partners. The Housing Liaison will also help families resolve issues such as unpaid rent, utility arrears, security deposit assistance, and other concrete support needs that frequently place families at risk of homelessness. By providing individualized guidance and advocacy, the Housing Liaison will help families secure those resources and referrals to support stable housing while building the skills needed to maintain long-term housing success.

Recognizing that housing stability and educational success are closely connected, FACT will additionally add support for our Education Liaison. Housing instability often disrupts a child's education, leading to chronic absenteeism, academic setbacks, and increased emotional stress. The Education Liaison will work closely with families, schools, and community partners to ensure children experiencing homelessness, living in shelters, or relocating due to housing instability remain enrolled in school and receive the educational supports and services available under the McKinney-Vento Homeless Assistance Act and other applicable resources. Maintaining educational continuity promotes academic achievement, strengthens protective factors, and provides children with consistency during times of crisis.

FACT's supportive services model extends beyond housing and education. Families will receive comprehensive resource navigation and referrals to employment services, workforce development programs, childcare resources, transportation assistance, behavioral health providers, substance use treatment, healthcare, financial literacy education, food assistance, and other community-based supports that address the root causes of housing instability. By coordinating these services through a single, trusted organization, FACT reduces barriers to access and helps families navigate systems that can otherwise be overwhelming.

2. How will this project be supplemented with resources from other public or private sources, that may include mainstream health, social, and employment programs such as Medicare, Medicaid, SSI, and SNAP.

We has established strong partnerships with public agencies, healthcare providers, educational institutions, workforce development organizations, housing providers, and community-based organizations to ensure families receive comprehensive support beyond the services funded through this project. The Supportive Services Project is intentionally designed to leverage mainstream public benefits and private resources to address the multiple barriers that contribute to housing instability and homelessness.

FACT's Housing Liaisons and Education Liaisons will work closely with families to identify needs, determine eligibility for available benefits, and assist with enrollment and ongoing navigation of essential support programs. Participants will be connected to Medicaid and Medicare for healthcare access, SNAP benefits to address food insecurity, coordinate with local DHHS for Supplemental Security Income, and other income support programs for eligible individuals with disabilities, childcare assistance programs, workforce development and employment services, transportation resources, behavioral health services, substance use treatment providers, and other federal, state, and local assistance programs.

In addition to public benefits, FACT will leverage private foundation funding, charitable donations, corporate partnerships, faith-based organizations, food distribution programs, and in-kind community resources to address unmet needs that are not covered through traditional funding sources. These partnerships allow FACT to provide flexible assistance for housing stabilization, emergency needs, educational supports, family engagement, and other concrete services that help families remain safely housed.

Our approach is grounded in the belief that stable housing is the foundation for healthy families and thriving communities. By combining housing stabilization, educational support, intensive case management, and coordinated resource navigation, the Supportive Services Project will help families exit homelessness more quickly, prevent future housing crises, increase economic stability, and build long-term self-sufficiency. Through strong community partnerships and a commitment to early intervention, FACT will ensure that families not only support with resources and referrals to obtain housing but also have the tools, knowledge, and support necessary to remain safely housed and achieve lasting success.

Rather than duplicating existing services, FACT serves as a trusted community navigator, coordinating resources across multiple systems and ensuring families receive timely, individualized support. This collaborative approach maximizes public and private investments, reduces service gaps, and creates a seamless continuum of care that empowers families to achieve long-term housing stability and self-sufficiency.

2a. Will the applicant conduct and annual assessment of service needs of the program participants? Yes

3. Describe the strategy for providing supportive services to eligible program participants (including those with history of unsheltered homelessness and those who do not traditionally engage with supportive services).

FACT utilizes a relationship-based, family-centered approach to engage individuals and families experiencing homelessness or housing instability, including those with a history of unsheltered homelessness and those who have not traditionally accessed supportive services. We recognize that many families face significant barriers to seeking help due to past trauma, distrust of systems, transportation challenges, stigma, or lack of awareness of available resources. Our strategy focuses on meeting families where they are, both physically and emotionally, and building trusting relationships that encourage long-term engagement.

FACT has established a strong community presence through mobile outreach, community support hubs, caregiver engagement events, literacy programs, and resource navigation services. These trusted, community-based touchpoints allow us to connect with individuals and families who may not seek assistance through traditional service delivery models. By bringing services directly into neighborhoods and partnering with schools, shelters, healthcare providers, community organizations, and local agencies, FACT reduces barriers to access and creates multiple entry points into supportive services.

Upon engagement, participants will receive a comprehensive assessment to identify immediate needs, housing barriers, and long-term goals. Each participant will work with dedicated staff to develop an individualized service plan focused on housing stabilization, family well-being, and self-sufficiency. This includes the Housing Liaison will provide case management support in relation to housing, homelessness, behavioral health, and other supports to guide families. The Education Liaison will work with families to advocate for educational supports and work with the schools to maintain educational stability.

Families will be connected to all other appropriate services to include behavioral health services, employment and workforce development programs, childcare resources, transportation assistance, healthcare, SNAP benefits, financial literacy education, and additional community resources based on their individual needs. Staff will provide ongoing case management, advocacy, follow-up, and coordinated referrals to ensure families remain engaged and successfully navigate multiple service systems.

Recognizing that trust is built over time, FACT employs a trauma-informed, culturally responsive, and strengths-based approach that empowers participants to actively participate in their own goal planning. Rather than focusing solely on immediate housing placement, our model addresses the underlying barriers that contribute to housing instability and homelessness while strengthening family resilience and long-term stability.

The Violence Against Women Act (VAWA) has clarified the use of CoC Program funds for VAWA eligible cost categories. These VAWA cost categories can be added to a new project application to create a CoC VAWA Budget Line Item (BLI) in e-snaps and eLOCCS. The new BLI will be added to grant agreements and utilized the same as other CoC Program BLIs in e-snaps and eLOCCS. Eligible CoC VAWA costs can be identified in one or both of the following CoC VAWA categories. Examples of eligible costs in these cost categories are identified as follows:

- A. VAWA Emergency Transfer Facilitation. Examples of eligible costs include the costs of assessing, coordinating, approving, denying, and implementing a survivor's emergency transfer(s). Additional details of eligible costs include:
